

How do I add text to a module?

You should use text headers to divide content within a module. This makes the content easier to view for your students as well as more organized.

1. In Course Navigation, click the **Modules** link.
2. Click the **+ sign** next to the module name

3. Click the **Add [Item Type]** to dropdown menu and select the Text Header option.
4. Type the text you wish to add in the **Header** field.
5. Open the **Indentation** drop-down menu and select the level of indentation for the text header.
6. To add text to the module, click the **Add Item** button

Add Item to module 1

Add **Text Header** to module 1

Type the text you'd like to add as a module sub-header

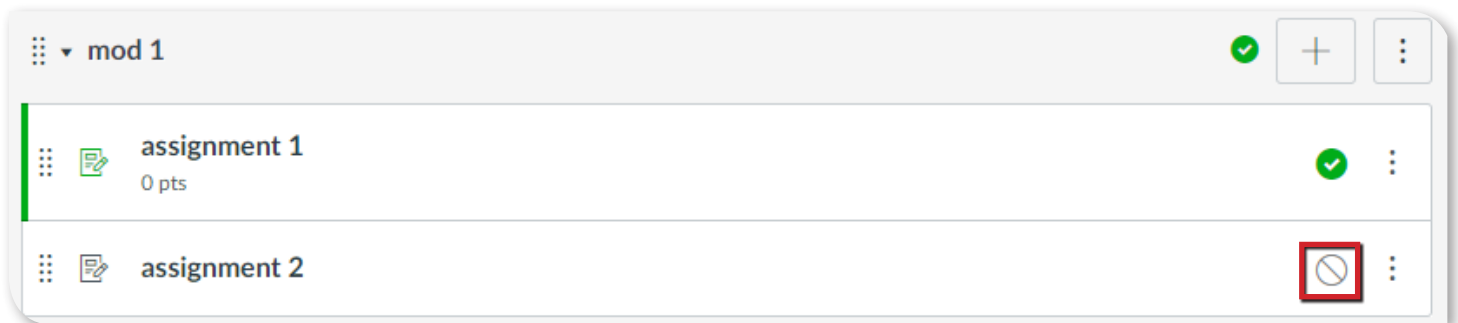

Header:

Indentation: **Don't Indent**

Cancel Add Item

View the new text header in your module.

To publish a text header, click the **unpublished icon**. The hover text will confirm you want to publish the text header.

It is recommended that you use headers to clearly define the spaces that you will include your learning materials (videos, documents, websites, and other links) and your assignments (Discussions, Assignments, and Quizzes).
