

Download the Panopto Recorder

Before using Panopto you will need to download the Panopto recorder.

Note: DO NOT use web search tools like Google to locate this application. Use only this version that is provided within Canvas.

To download the recorder

- Login to Canvas and enter your course
- Click on Panopto Recordings on the left of your course
- Click on the Create button on the top, then Record a new session
- Click on Download Installer - select the appropriate option for your computer
- Open the install file and follow the steps to complete the installation
