

How to review webcam videos with Respondus Monitor

If students were required to use the webcam feature (Respondus Monitor) with the quiz, instructors can access information about the quiz sessions and can review the recorded videos. Note that Respondus Monitor is intended to be a deterrent, so it's up to the instructor to determine the level of review warranted.

The screenshot shows the Canvas LMS interface. On the left is a navigation menu with 'LockDown Browser' highlighted (1). In the center, under the 'Quizzes' section, a quiz titled '2-' is shown with a context menu open (2). The context menu has 'Video Review' selected (3). To the right, the 'LockDown Browser' status is shown as 'Required' for the quiz.
