Office of the Dean of Students

Experiences Enhancing Your Education:

Internships and Graduate Assistantships in the Division of Student Affairs
Dear student,

Thank you for your interest in an internship or graduate assistantship (GA) in the Division of Student Affairs. The overall mission of the Division of Student Affairs is to support the success of UB students in their pursuit of knowledge and learning and to educate and support the whole student. An internship or GA position provides students with unique opportunities to gain professional experience, network, and enhance their knowledge of student affairs while complementing the learning they are doing in one of our graduate programs. Interns and GA’s in one of our seven offices have opportunities to do research, provide direct service to students, facilitate small and large-scale campus life programming, assist with training initiatives and supervise undergraduate students. The hands-on learning that these leadership positions provide students is crucial in fine-tuning interests and preparing for a professional life post-graduation. I myself know the value of a UB internship as I served as an intern in ’05–’06 in the Counseling Services office while completing my Masters in Community Counseling. From counseling students to providing outreach to the community, the experience was invaluable and affirmed that I was making the right choice in pursuing a career in student affairs.

We appreciate your interest in complementing your UB graduate education by considering an internship or GA in the Division of Student Affairs. More information about the many specific opportunities is available on the following pages. Please feel free to contact me at 203-576-4392, email deanofstudents@bridgeport.edu or stop by room 116 of the John J. Cox Student Center if you have any questions. We look forward to working with you!
