Documentation Requirements

Students who register for support from the Office of Disability Services are required to present current documentation to authenticate eligibility as defined under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. In most cases, this information cannot be more than 3 years old. Protection under these civil rights statutes is based upon documentation of a physical or mental impairment, which substantially limits one or more of a person’s major life activities, determined without regard to the impact of mitigating measures (except glasses or contact lenses), having a record of such an impairment, or being regarded as having such an impairment. Current documentation is vital in determining proper accommodations and auxiliary aids for each individual. Eligibility for accommodations must be supported by documentation and accommodations must be determined reasonable by the Office of Disability Services.
