COURSE SYLLABUS

Please read the following course syllabus carefully, especially the course dates, times and location. If you have any questions, please do not hesitate to communicate with the IDEAL Program office, your academic advisor, or the instructor.

The IDEAL degree-completion program is designed with the adult learner in mind. Adult learners approach learning with specific goals, want to be able to directly apply new learning to their work and personal lives, and tend to learn best when the coursework is problem-centered so that they are actively engaged in the learning process. In addition, adults bring rich and varied experience to the classroom, which becomes a valuable learning resource for other students.

The IDEAL Program assumes joint responsibility in the learning process. The activities and assignments in the courses build on the shared experience of all learners in each class. This is why each student’s preparation, participation and interaction in class activities and discussions are critical to the success of each course. The accelerated format of each course requires a significant amount your time outside the course to prepare for and complete the course assignments. This varies between students and courses; however, students typically spend nine-twelve hours per week on course material.

To participate in the IDEAL Program, it is expected that you will do the following:
1. Participate in and complete the online orientation prior to your first online course.
2. Obtain the required course materials prior to the course start date.
3. Login and participate in your course a minimum of three times per week.
4. Complete all assignments to the best of your ability.
5. Participate in the class discussions and demonstrate respect and consideration to the instructor and other students when they express themselves in discussion.
6. If you have any technical difficulties, you must contact the Office of Distance Education immediately at ubonline@bridgeport.edu.

If you cannot perform these six expectations, it is recommended that you drop the course. We look forward to your academic success in each course and the ultimate completion of your degree.
University of Bridgeport
IDEAL program

MATH 100: Elementary Algebra
Course ID: zambon20526

Summer 2015 Course Syllabus
Office hours: Communicate via emails
Instructor: Katharina Zambon
Email: kzambon@bridgeport.edu
Online
May 4th – August 22nd, 2015

Required Materials:

1) Basic Calculator with square root and exponent.

2) MyMathLab Student Access Kit online supplement: This is where all your homework assignments and quizzes will be completed. The purchase of a textbook is optional as the online supplement already contains the textbook in the “Multimedia Library” link. The cost for this supplement is approximately $88.00. Go to: www.coursecompass.com

Each student MUST create a My Math Lab account at the beginning of the semester. The course ID is zambon44575

After purchasing the access code, go to pearsonmylab.com, click on register, student and enter the course ID in the box.

Evaluation and Grading Criteria:
Course Grades will be calculated based on the following criteria: CR = in Class Room

<table>
<thead>
<tr>
<th>MyMathlab HW</th>
<th>300</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 Tests online</td>
<td>250</td>
</tr>
<tr>
<td>4 Quizzes</td>
<td>200</td>
</tr>
<tr>
<td>Final Exam-CR</td>
<td>250</td>
</tr>
<tr>
<td>Total Points</td>
<td>1000</td>
</tr>
</tbody>
</table>
Extra Credit: There is no “extra credit” given in this course.

Grades: Final grades will be calculated and transferred to the following letter grades.

<table>
<thead>
<tr>
<th>Grade Range</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>93 and above</td>
<td>A</td>
</tr>
<tr>
<td>90-92</td>
<td>A-</td>
</tr>
<tr>
<td>87-89</td>
<td>B+</td>
</tr>
<tr>
<td>83-86</td>
<td>B</td>
</tr>
<tr>
<td>80-82</td>
<td>B-</td>
</tr>
<tr>
<td>77-79</td>
<td>C+</td>
</tr>
<tr>
<td>73-76</td>
<td>C</td>
</tr>
<tr>
<td>70-72</td>
<td>C-</td>
</tr>
<tr>
<td>67-69</td>
<td>D+</td>
</tr>
<tr>
<td>63-66</td>
<td>D</td>
</tr>
<tr>
<td>60-62</td>
<td>D-</td>
</tr>
<tr>
<td>Below 60</td>
<td>F</td>
</tr>
</tbody>
</table>

Course Curriculum: (Also, refer to last sheet of this syllabus for a complete timetable).

Chapter I: 5/04 – 5/18’15 (and Orientation)
- 1.1 - 1.4: Sets of Real Numbers and Fractions, Order of Operations, Properties
- 1.5 – 1.6: Exponents, Roots, and Word Phrases
- 1.7 – 2.1: Expressions, Equations and Formulas –

Chapter II: 5/19 – 6/01’15
- 2.2 – 2.3: Addition and Multiplication Principle and Formulas
- 2.5 & 2.6 – Linear Inequality problems
  QUIZ I (Chapter I & II)

Chapter III: 6/02 – 6/22’15
- 3.2 – 3.3: Percentages, problems with 2 unknowns - & TEST I

Chapter IV: 6/23 – 6/29’15
- 4.1 – 4.2: The rectangular Coordinate System & Graphing Linear Equations.
  QUIZ II

Chapter V: 6/30 – 7/20’15
- 5.2 – 5.3: Introduction to Polynomials. Adding & Subtracting Polynomials.
- 5.4 – 5.5: Rules of Exponents - Multiply Polynomials and Special Products.
- 5.6: Division of Polynomials – QUIZ III

Chapter VI: 7/21 – 8/03’15
• 6.1 – 6.2: Factoring (GCF) by Grouping & Factoring Trinomials. QUIZ IV

REVIEW, Test II, & FINAL EXAM: 8/04 – 8/17/’15

• Final Exam – in classroom on Thu 08/20/’15 from 4PM – 7PM or on Fri 08/21 ’15 from 9AM – 12:00PM-noon (your choice of day & time). All 3 IDEAL sites will be open for the final exam: Bridgeport, Stamford & Waterbury - students can take the exam at the site of their choice, please notify respective office on time-if possible a week ahead of time. For out of state/country students I will make special arrangements with a proctor.
• At the Main Campus we will meet in the IDEAL office (conference room)

The exam must be finished within the set time, therefore please come in on time – thank you!

Note: The course is an open process with specific due dates. Everyone may go at a faster pace (not slower) and finish before any dead line, even the final exam.

What you need to get started:

1. A Valid Email Address: Please use your most frequently used email address.
2. A Course ID : zambon20526

Step-by-Step Registration Instructions (including purchase)
1) Go to www.coursecompass.com and click on “Register as a student”. (You only need to register ONCE)
2) Choose “Get access to a new course” and click “Next”
3) Enter the Course ID which is: zambon20526
4) Verify that the course ID matches the name of this course and click “Buy Now”.
5) Choose “No” for “Do you have a Pearson Education Account?” and create a user name and password for your new account.
6) Fill in the remaining requested information (such as personal information, credit card information, etc.) and the following as directed: school zip code: 06604 country: United States
7) You will use the login name and password you create to access My Math Lab the remainder of the semester.

Login Instructions (after you have registered):

1) Go to www.coursecompass.com
2) Click Log in under the STUDENT area.
3) Enter the login name and password that you created during registration.
4) At the **Welcome** page, you will see your course under the heading **Courses you are taking**. Click the course name to enter My Math Lab.

5) You must enable pop-ups from this site.

6) The first time you enter the site from your computer and anytime you use a new computer, click on the software **MyMathLab Installation Wizard** link in the Announcements page. This wizard will walk you through the installation of the software you will need to run MyMathLab.

**STUDENT LEARNING OUTCOMES**

1. Through analyzing data either obtained numerically, graphically, or from a real world application, students will be able to create, manipulate, and interpret mathematical models of relationships between quantities. The types of patterns that they will be able to work with and distinguish between are linear, exponential, and quadratic.

2. Students will be able to translate between rule of 4 (graphic, symbolic, numerical/data, verbal/applied) function representations, and solve problems using their understanding of functions. They will be able to analyze and interpret inverse relationships at an introductory level.

3. Through successful problem solving, students will demonstrate an appreciation of the usefulness and beauty of mathematics.
Upon completion of this course the student should be able to:

1. Model and solve word problems involving linear, quadratic and exponential functions.
2. Broaden elementary algebra computational skills to include linear and quadratic functions and 2x2 systems of equations.
3. Choose the appropriate linear, quadratic, or exponential function to model data.
4. Graph and interpret the specific properties of linear, quadratic or exponential functions within the context of the problem.
5. Solve equations with exponential, quadratic, and trigonometric functions.

ACADEMIC POLICIES

Attendance Policy
Course attendance via online participation is an integral part of the online academic experience; therefore, students are expected to be participative in all course activities and discussions. If an absence is unavoidable, the student should communicate with the instructor. Arrangements should be made at that time for submission of any missed assignments.

IMPORTANT:
- An absence (lack of participation) in any week of the course, will drop the final grade by one letter grade (for example if a student earns a grade of “B” in the course, the final grade would be a “C”).
- An absence of two or more weeks will be cause for a failing grade.

Drop Procedures
To drop a course, you must complete and submit a Schedule Change Request Form. The form can be accessed at the IDEAL Course Schedule webpage:

Please print and complete the form and fax the form to the IDEAL Office: 203-576-4537. Prior to dropping a course, the student should contact their IDEAL Academic Advisor to understand the implications to financial aid and/or degree plan progress.

Please review the drop fees and tuition refunds at the Academic Calendar; accessed at the IDEAL Course Schedule webpage (same link above).

Cell Phones
Cell phones must be turned off (or placed on “vibrate”) while in the classroom. A cell phone call is disruptive and disrespectful to the other students in the class.

Academic Dishonesty
The IDEAL program prohibits all forms of academic dishonesty. Academic dishonesty is normally defined as, but not limited to, the following two categories:

Cheating – Using inappropriate sources of information in an assignment or on a test. The following are examples of cheating taken from real student experiences:
Case #1: A student is enrolled in an introductory psychology course. He has co-workers who have taken the same course. As the end of the course approaches, he wonders how he will find the time to get the research paper finished, and asks one of his co-workers for help. His co-worker hands him a research paper that he submitted in a similar course. The student makes minor modifications to the paper, and submits it under his own name.

Case #2: A student enrolled in a humanities course is unsure about how to structure an essay. She is doing research on the World Wide Web, and comes across an essay written by a student from another university. Using her computer mouse, she copies and pastes the essay into her word processor. She goes to great lengths to re-word the paper in her own style, but essentially leaves the content and organization the same.

Plagiarism – Intentional as well as unintentional failure to acknowledge sources as well as the use of commercially available so-called “research papers” without full recognition of the source. Presenting as one’s own, the ideas, words, or products of another. The following are examples of plagiarism taken from real student experiences:

Case #3: A student is conducting research for a Civil War research paper. He has reviewed work on the Internet. Finding helpful information, he has summarized his findings without citing his sources. He believes that minor paraphrasing is all that is necessary.

Case #4: A student is writing a paper that requires her to address specific topics and problems in the assigned course textbook. She takes the information directly from the textbook with slight modification, without giving any citation. She thinks that since it is the course textbook, she doesn’t have to use quotations or citations.

Academic dishonesty applies to all courses, assignments or exams completed by students and submitted as their own original work, whether in person or by electronic means. The University does not tolerate cheating in any form. It is a serious breach of conduct with serious consequences. Instructors have the right to determine the appropriate penalty for academic dishonesty in their own courses; generally, however, such acts will result in a failing grade for the assignment and/or the course. The penalty for subsequent acts of academic dishonesty may include expulsion.

More information on how to recognize plagiarism can be found at this site: http://www.indiana.edu/~istd/plagiarism_test.html

Ethics Statement of Confidentiality
An integral component of an IDEAL course is student and faculty expression of personal experiences for the purpose of facilitating coursework. Students enrolled in the program are expected to honor confidentiality as it pertains to student disclosure. Shared information, comments, or opinions expressed by another student or the faculty member during the course of classroom discussion should never be used in a manner which is intended to humiliate, embarrass, harass, damage, or otherwise injure other students in their personal, public, or business lives. In addition, confidentiality must be upheld by not disclosing any information that would identify any particular individual.

ACADEMIC RESOURCE CENTER
The Academic Resource Center is available for IDEAL students seeking help in their studies. The Center is staffed by writing professionals and peer tutors. More information can be found at: http://www.bridgeport.edu/pages/2209.asp The Center is located on the 5th Floor of the Wahlstrom Library. Make an appointment or walk-in: Telephone: 203-576-4290. Online Tutoring is available at: www.etutoring.org. To use this free service you must have a UBNet account.

Obtaining a UBNet Account
Every registered student should obtain a UBNet Account. The account allows you to access MyUB; the portal for grades, library services, Canvas online learning system. Also, the account allows you access to computers in the Library and computer labs, and provides an email account in which the University sends out information. Go to: http://www.bridgeport.edu/ubnet - Click on “New UBNet Account” and follow the instructions.

The @bridgeport.edu email address is the official email the University uses to send information to you. You can have your bridgeport.edu email forwarded to any other private email account you use. Following the activation of your UBNet account (takes 24 hours), login at: http://www.bridgeport.edu/email and click on “forwards” at the top of the page. Follow the directions to forward email messages to your other account.

Learning Management System (LMS) - Canvas
For all courses that use Canvas, you can access Canvas through the portal by using the myUB link. Faculty post class documents on Canvas e.g. syllabus, power points, discussion questions, case studies, current event articles, papers, reports etc. (save some trees). All students have access, and can download and copy the documents.

Canvas Tutorial For Students: https://bridgeport.instructure.com/courses/985903
For assistance contact the UB Help Desk at 203-576-4606 or email helpdesk@bridgeport.edu

Accessing Your Grades & Schedule Online
The WebAdvisor online information system allows students to search for available classes, check grades, view semester class schedule and verify your personal profile. Grades are generally posted 2-3 weeks following the end of a course. To access WebAdvisor, login in to MyUB and follow the WebAdvisor menu on the right. If you are carrying a financial balance, access to WebAdvisor will be restricted.

Using the Library
Access to the Digital Library is through MyUB. On the MyUB home, in the central column, click on “myEureka Digital Library.” Research tools available:
- Search for books held at the library.
- Search the online databases for your academic field; business, counseling, human services, psychology, etc.
- Send questions to the Reference Librarian for assistance in research topics and searching strategy.

Using Computers
Open access computer labs are available at three locations:
- Bridgeport – 1st floor of the Wahlstrom library. Check library hours of operation at: http://www.bridgeport.edu/library.
- Stamford – Room D; Check open hours at: [http://www.bridgeport.edu/stamford](http://www.bridgeport.edu/stamford)
- Waterbury – Computer Lab; Check open hours at: [http://www.bridgeport.edu/waterbury](http://www.bridgeport.edu/waterbury)

**Course Cancellations**
Any emergency necessitating the canceling of courses will be announced by the University through the Emergency Notification Telephone Line, (203) 576-4159. Please call this number for information on course cancellations. Also, information will be posted under “Latest News” on the UB home page, ([www.bridgeport.edu](http://www.bridgeport.edu)). Canceled classes will be made up either the week following the end of the course or in consultation between the instructor and the students as to day and time availability. Course cancellations are also announced on television and radio stations.
