

AG Semiconductor is one of the largest suppliers in the world of second-hand semiconductor manufacturing equipment. We are looking for a Systems Administrator to oversee our worldwide IT infrastructure. Knowledge of networking, web technologies, mail, and systems management is a must. Specific experience with Cisco, Linux, Apache, MySQL, and web development is desirable. Ideal candidate will have demonstrated ability to adapt and learn new technologies as necessary.

Position is full time, based in Stamford, CT, with occasional travel in US, Europe and Asia. Salary is \$50-\$60,000, commensurate with experience.

For immediate consideration, please send resumes to:
