COURSE SYLLABUS

Please read the following course syllabus carefully, especially the course dates, times and location. If you have any questions, please do not hesitate to communicate with the IDEAL Program office, your academic advisor, or the instructor.

The IDEAL degree-completion program is designed with the adult learner in mind. Adult learners approach learning with specific goals, want to be able to directly apply new learning to their work and personal lives, and tend to learn best when the coursework is problem-centered so that they are actively engaged in the learning process. In addition, adults bring rich and varied experience to the classroom, which becomes a valuable learning resource for other students.

The IDEAL Program assumes joint responsibility in the learning process. The activities and assignments in the courses build on the shared experience of all learners in each class. This is why each student’s preparation, participation and interaction in class activities and discussions are critical to the success of each course. The accelerated format of each course requires a significant amount your time outside the course to prepare for and complete the course assignments. This varies between students and courses; however, students typically spend nine-twelve hours per week on course material.

To participate in the IDEAL Program, it is expected that you will do the following:

1. Participate in and complete the online orientation prior to your first online course.
2. Obtain the required course materials prior to the course start date.
3. Login and participate in your course a minimum of three times per week.
4. Complete all assignments to the best of your ability.
5. Participate in the class discussions and demonstrate respect and consideration to the instructor and other students when they express themselves in discussion.
6. If you have any technical difficulties, you must contact the Office of Distance Education immediately at ubonline@bridgeport.edu.

If you cannot perform these six expectations, it is recommended that you drop the course. We look forward to your academic success in each course and the ultimate completion of your degree.
Cheating and Plagiarism
It is the student’s responsibility to become familiar with and adhere to the standards set forth in the policies on cheating and plagiarism as defined in Chapters 2 and 5 of the Key to UB http://www.bridgeport.edu/pages/2623.asp or the appropriate graduate program handbook.

E-mail correspondence
It is imperative that you check your UB e-mail on a regular basis. All written correspondence, to include IDEAL and the University will be sent to you through his e-mail. The University can no longer correspond to your personal e-mail account(s).

Ethics Statement of Confidentiality
An integral component of an IDEAL course is student and faculty expression of personal experiences for the purpose of facilitating coursework. Students enrolled in the program are expected to honor confidentiality as it pertains to student disclosure. Shared information, comments, or opinions expressed by another student or the faculty member during the course of classroom discussion should never be used in a manner which is intended to humiliate, embarrass, harass, damage, or otherwise injure other students in their personal, public, or business lives. In addition, confidentiality must be upheld by not disclosing any information that would identify any particular individual.

The discussion questions will be based on the primary readings and related articles and content posted in the course materials. You must actively participate in the course by engaging and making thoughtful comments relevant to the readings and class material in the weekly online discussions. Each student is expected to give a thoughtful response to each of the weekly online questions within the first 1-3 Days of the Course Week. In addition each student is to give at least three replies to comments posted by peers in your weekly online group within. Ideally most of the discussion will have occurred within the first 5 days of the Course Week. Posting made after the course week will not count in the grading. The idea is to be engaged continuously throughout the entire online course.

See the Week 1 Module for detailed instructions on discussions.

Additional instructions will be given during the course.

Social Solution Paper
20 Points
Select a social problem that captures your interest. Then research an innovative solution or set of solutions that have proven to be successful in addressing the problem with great effectiveness. Your paper will address the issue, the innovative approach taken to solve it, the impact it is having, and why you might recommend this approach to others. You should also contact the agency or collaborative entity implementing the solution for their experience, analysis and lessons learned.

It is very important that the final paper is an integrated whole with a clear beginning, middle
and end. One way to go about this is to imagine that you are a consultant, researching an innovative best practice or practices and then making the case to other communities why they should adapt this approach. We will utilize specific discussion questions so that your can prep for this exercise.

This assignment is designed to help you have a solution orientated mindset to social problems around us and tap into your curiosity, creativity, innovative and solution seeking mindset. Your paper should draw on perspective thinking regarding possible solutions, should integrate material from the text and course content and draw on your own experiences and perspectives (professionally and/or personally) with the solution. The paper is to be a minimum of 4-5 pages, typed double spaced and 12-point font. Use APA style for references.

NOTE: Additional specific instructions will be given about this assignment during the course.

Reading Quiz
15 Points
This is a learning experience to comprehend key concepts from the readings.
1. Based on REQUIRED Weeks 1-5 readings as outlined in the Syllabus
2. Open Book and Open Notes
3. Questions are all multiple choice
4. Choose the one alternative choice that best completes the statement or answers the question.

As a class we will be review the questions and correct responses following the test.

NOTE: Additional specific instructions will be given about this assignment during the course.

Final Research Project and Paper
25 Points
Focus on Social Solutions to a Specific Social Problem
1. Each student is to identify one social problem that is of interest to him/her and one that the student is unfamiliar. The student should then locate an agency, community center, or organization that is contributing a solution/s to that social problem.

2. Arrange a site visit in order to learn more about the chosen social problem and solutions being advanced. It is recommended that you make a list of organizations to reach out to so that you increase your prospects of getting an interview.

3. Prior to the site visit, research the organization online by reviewing their website, and any articles written about the organizations work. During this process, outline a list of questions to ask the administrator and staff.

4. During the site visit arrange for an interview with the Executive Director or an Administrator. Also, interview staff that specializes in specific programs at the agency.
You can also arrange to volunteer at the agency for a deeper insight into their mission.

5. Students should not go to places they have been to or normally go to (e.g., college campus, place of employment, place of worship, etc.). You should go into this project with an open mind putting aside personal bias and prejudice.

6. The content of the paper should be comprised of thoughtfully and thoroughly responding to the following statements.

   a. **Background (2 Pages)**
      i. What social problem was selected and why.
      ii. Name of organization, date of visit/s, name of who you met with, etc.
      iii. Information about the organization you visited with (e.g., history, mission, etc.).
      iv. Communications with administrator, staff, etc. on the social problem their agency addresses, the solutions that they are advancing. What are their perception of opportunities and challenges in dealing with the issue?
      v. An overview of activities you participated in.

   b. **Analysis (3 Pages Minimum)**
      This is the central and most creative part of the paper, where the bulk of the grading will be made. It will assess you ability to apply knowledge from theory and research to the actual site visit and problems and the specific social problems being addressed.
      i. It is critical that you relate your SITE experience to course materials. Apply concepts, theories, and issues discussed in class and through course readings to the mission of the organization and the social problem that it targets.
      ii. Analyze the Agency, the Social Problem it is trying to solve and discoveries from the Site Visit from ALL Three Sociological Perspectives. Focus on the APPLICATION of the Three Sociological Perspectives to the Agency and Site specifically. This should not be a stating of theory in general, but its application in this instance. (Two Pages of Content on this part)
         1. Functionalist
         2. Conflict
         3. Symbolic Interactionist
      iii. Compare innovative solutions offered by other agencies or organizations to the ones being advanced in the agency you visited. You will need to research innovations being adapted or pioneered in other agencies and suggest how the agency you visited can benefit from one or more such innovations. (One Page on this part)

   c. **Reflection (1 Page Minimum)**
      i. What did you identify as the most important things that you learned
about the social problem through your experiences at the organization?

ii. How was your experience as a result of the site visit or as a volunteer affected, if at all, in terms of the way you think about the social problem and/or clients that the organization deals with?

iii. What did you personally learn about yourself from your site visit or service learning participation?

iv. What realistic and feasible things would you like seen done about the social problem that you learned about.

7. Adhere to the following guidelines when preparing the paper. The total length of the paper (excluding the title page and references page) must be a minimum of six complete pages. The paper must be typed using double spacing, a font size of 12, and one-inch margins. Include a title page with your paper containing the following: Your name, course name, course number, professor’s name, and paper title. There must be a minimum of five references cited and included on a reference sheet at the end of the paper. Use APA style for citing references.

8. Limit your personal experience with the topic to no more than ¼ page. This personal experience must support the academic points that are being made in the paper.

9. A typed proposal of your topic, title and outline for this paper is due at the beginning of class on either Course Week 2 or latest by Course Week 3. The proposal form should be prepared in a manner similar to the one included in this course syllabus. You will be given input on your proposed topic that may result in some revisions. The final paper is due at the end of Course Week 7.

10. This assignment is almost 1/3 of the course grade. Therefore is important to start working on it prior to the first class and we will be making it a priority during each week of the course.

NOTE: Additional specific instructions will be given about this assignment during the course.

ACADEMIC POLICIES

Attendance Policy
Course attendance via online participation is an integral part of the online academic experience; therefore, students are expected to be participative in all course activities and discussions. If an absence is unavoidable, the student should communicate with the instructor. Arrangements should be made at that time for submission of any missed assignments.

IMPORTANT:
- An absence (lack of participation) in any week of the course, will drop the final grade by one letter grade (for example if a student earns a grade of “B” in the course, the final grade would be a “C”).
- An absence of two or more weeks will be cause for a failing grade.

Drop Procedures
To drop a course, you must complete and submit a Schedule Change Request Form. The form can be accessed at the IDEAL Course Schedule webpage: http://www.bridgeport.edu/academics/continuinged/ideal-academic-degree-programs-and-certificates/ideal-course-schedule/.

Please print and complete the form and fax the form to the IDEAL Office: 203-576-4537. Prior to dropping a course, the student should contact their IDEAL Academic Advisor to understand the implications to financial aid and/or degree plan progress.
Please review the drop fees and tuition refunds at the Academic Calendar; accessed at the IDEAL Course Schedule webpage (same link above).

Cell Phones
Cell phones must be turned off (or placed on “vibrate”) while in the classroom. A cell phone call is disruptive and disrespectful to the other students in the class.

Academic Dishonesty
The IDEAL program prohibits all forms of academic dishonesty. Academic dishonesty is normally defined as, but not limited to, the following two categories:

Cheating – Using inappropriate sources of information in an assignment or on a test. The following are examples of cheating taken from real student experiences:

Case #1: A student is enrolled in an introductory psychology course. He has co-workers who have taken the same course. As the end of the course approaches, he wonders how he will find the time to get the research paper finished, and asks one of his co-workers for help. His co-worker hands him a research paper that he submitted in a similar course. The student makes minor modifications to the paper, and submits it under his own name.

Case #2: A student enrolled in a humanities course is unsure about how to structure an essay. She is doing research on the World Wide Web, and comes across an essay written by a student from another university. Using her computer mouse, she copies and pastes the essay into her word processor. She goes to great lengths to re-word the paper in her own style, but essentially leaves the content and organization the same.

Plagiarism – Intentional as well as unintentional failure to acknowledge sources as well as the use of commercially available so-called “research papers” without full recognition of the source. Presenting as one’s own, the ideas, words, or products of another. The following are examples of plagiarism taken from real student experiences:

Case #3: A student is conducting research for a Civil War research paper. He has reviewed work on the Internet. Finding helpful information, he has summarized his findings without citing his sources. He believes that minor paraphrasing is all that is necessary.

Case #4: A student is writing a paper that requires her to address specific topics and problems in the assigned course textbook. She takes the information directly from the textbook with slight modification, without giving any citation. She thinks that since it is the course textbook, she doesn’t have to use quotations or citations.

Academic dishonesty applies to all courses, assignments or exams completed by students and submitted as their own original work, whether in person or by electronic means. The University does not tolerate cheating in any form. It is a serious breach of conduct with
serious consequences. Instructors have the right to determine the appropriate penalty for academic dishonesty in their own courses; generally, however, such acts will result in a failing grade for the assignment and/or the course. The penalty for subsequent acts of academic dishonesty may include expulsion.

More information on how to recognize plagiarism can be found at this site: [http://www.indiana.edu/~istd/plagiarism_test.html](http://www.indiana.edu/~istd/plagiarism_test.html)
