

UNIVERSITY OF BRIDGEPORT

# LOVE Story

We grew up in neighboring towns in Massachusetts, but met here at UB. In 2018, we started dating after a few months into the start of the Physician Assistant program. We quickly realized we had a lot in common and made a great couple. We traveled to Guatemala and participated in the AAPA challenge bowl in Denver, CO. We enjoyed date nights in New York City and hanging with friends in downtown Milford. She is now an emergency room PA at a local Massachusetts hospital and I work in thoracic surgery in Boston.
