

UNIVERSITY OF BRIDGEPORT

# LOVE Story

We met on orientation week and I was mesmerized by her from the moment we met. She pushed me to be a better person and better student. We helped each other get through school and we made it easier for each other. I don't think my college experience would have been as good as it was if I didn't have her in my life. I loved being with her so much that I proposed on graduation day. We are married with two wonderful boys and we could not be more thankful for the life we have made together. We have UB to thank ... for getting us together in this lifetime.
