LOVE Story

Psychotherapist Dr. Elena Cela had completed her undergraduate degree in Psychology and Human Services and was working on her master's in counseling when she first met Leonardo Nazario Rosa, who had arrived from Brazil to study design at UB. At the 2015 Gathering of the Vibes they met and she fell for his irresistible smile. (Photo from the day they met!) They shared a kiss outside Chaffee Hall before he left for Brazil. Little did they know, it was just the beginning. They began a long-distance relationship that lasted years, finally getting engaged in 2022. When Leo moved to America in 2024, they finally said "I do."
