

UNIVERSITY OF BRIDGEPORT

LOVE Story

We met August 25, 2013, the Sunday before classes started my freshman year in the Bodine 1st floor lounge. I saw him performing at the activity fair with his Fraternity, Lambda Sigma Upsilon, Latino Fraternity, Inc. and I was amazed. He eventually started catching me walk to class on Mondays at 4:30 as he was leaving his classes in Carlson. Four months later he asked me to be his girlfriend and here we married in 2017 after his return from a yearlong deployment to South Korea. After getting married in August of 2017 we moved in together in a cozy apartment near the West Point Military Academy where he finished his contract and later got a job there while I finished up grad school at UB. Now we are back in the state that joined us together and hoping to make this our forever home.
