Bachelor of Arts or Bachelor of Science in Biology

Earn a degree that's focused on your future

With constant developments in research and technology, the need for skilled and experienced scientists is growing. UB's Biology graduates go on to have meaningful careers in biomedical science, biotechnology, pharmaceuticals, medical professions, conservation biology, and more. In this program, you'll develop a comprehensive understanding of the organization of life. Depending on your career goals, you can choose between a Bachelor of Arts or a Bachelor of Science in Biology.

Scientists are at the forefront of research and innovation — finding answers to our most complicated questions. At University of Bridgeport, classes are taught by experts in their fields. Their diverse backgrounds and teaching strategies will help you gain the skills and knowledge to pursue a career in all areas of Biology.

Bachelor of Arts in Biology

A BA in Biology will jump-start your career in the biological sciences. You can choose among many elective courses, and thereby tailor your degree to your interests and career goals — combine the BA in Biology with a minor in Education for an exciting career as a science educator.

Bachelor of Science in Biology

A BS in Biology will prepare you to continue your education by pursuing a graduate degree in the field. Whether you want a career in research and development or to help others by becoming a medical professional, at UB, you'll gain the skills and experience needed for success in the field.
